Enclosed find an approximate list of expenses that (Armando Munero) gave me for consideration. However, he would like to talk it over as to the rest of his stay in the U. S.  
(Armando Munero<sup>06</sup>) enclosed a note he asked to have sent over, "La Voz d las Americas" (onda corta--short wave). This is supposed to be some sort of signal to his O. P. C. group in Cuba to get behind and cooperate with information and sabotage.-----  
I did not talk to him as yet since I am awaiting word from you as to this Monday's meetings with him.-----

August 19/61  
Jacinto Luzarraga, a friend from Cuba and former sugar mill owner, and father-in-law of Lino Fernandez (MRR, now in jail at the Isle of Pines), told me that Dr. (Antonio Valdes Rodriguez<sup>06</sup>) (30th of Noviembre Movimiento) was taken to jail after returning to Cuba from Miami last time here, and not as yet released. Jacinto arrived here with his wife and 3 grandchildren about 5 days ago. He was formerly a member of the famous old Cuban A B C group. It should be remembered that Dr. (Valdes<sup>06</sup>) received training in S/W, his last trip here.-----

August 19/61  
Ben Volpe, now working at Holiday Tours, Biscayne Blvd., Miami, told me that his father, having come from Cuba a few days ago, told him that Federico Claramont, 1100 10th St., Miami Beach (living close to them), is a suspected member of Castro's G-2 and known as such since being in Cuba. He arrived in the U. S., Miami, as a political ex-which is a cover for his true mission here, and status.-----

5.

August 19/61  
Jacinto Luzarraga and his relative told me that it is being rumored that since only men are taken to Opa Locka by Immigration for 48 Fidel Castro is sending in many G-2 women instead of men for his clandestine operations here, between here and Cuba. I also heard rumored that some of these agents are sent to tie in with Communists in the U. S., various regions of the U. S. I have no other info. this as could not find out more since it was told to me as a rumor.

6.

August 19/61<sup>06</sup>  
(Armando Munero) told me that he gets information from his uncle Guillermo Rojas, a long time Cuban Communist who is presently working in the Imprenta Nacional at Havana. He helped (supposed to be one

the main) organize the library of the Communist throughout Cuba. His uncle told him that Khrushchev promised Fidel Castro that he have missiles in Cuba (this was a few months ago). Also, his uncle that the Russians have spies in the Pentagon that pull for Fidel Castro, and they have already plenty of agents belonging to the Communists in all branches of importance of the U. S. Gov't., even in the CIA. He said that all people in Cuba that worked with the CIA were picked up through their agents and those presently working with same are being watched closely. (Munero) told me that he is kind of suspicious of Eugenio, his being Cuban and because a sort of sixth sense, as he calls it.-----

- Bart told me last week that Juez Garceran was the one that sent letter you received to Carlos Prio as he recognized the handwriting on both envelopes. The above judge told Bart that some have been given Salvo Conductos to Mexico and that the Italian Embassy is emptying out some. This judge is the one that made the list of people held up in the Italian Embassy, that you received from Bart.
- Bart told me that he thought that Alberto Del Junco (MDC), that I am in touch with, is getting aid from someone from the U. S. Gov't. Del Junco's sister saw him this past Friday night at his home and gave him \$5,000.00 in U. S. Dollars (money) to send through the Post to Cuba to be given to her brother down there. She didn't want to disclose to Bart where and from whom she received the money, and only said that it was from his group (MDC) here. Bart thinks that this is not true. He sent the money down already.
- Enclosed (marked in pencil, #7) find photostatic copies of letters sent to Oscar Diaz from former F. Castro Pres. Urrutia and from a Macaroni that Bart knows. It is self explanatory in Spanish and Bart says that he knows that the air strips shown on enclosed map are truly in existence. Bart received these photostatic copies to his suggesting same to Oscar Diaz upon delivery. I couldn't tell this letter to you a few nights ago as he had to deliver same in a short hour of the time I visited him. However, I suggested his trying to stand by when the letter was opened. Oscar Diaz liked Bart's idea making photostatic copies of same and Bart asked for one for himself.

It seems that Captain Despain wants to break up the Intell. Service of the Frente due to lack of funds, says Dr. F'dez. However, we have not yet having tried to find out whether this Captain Despain was Ernesto we were not sure. Having been introduced upon our 2nd visit last Friday, 9:30 A. M. (first visit was 2 days previously at 9:30 A. M.) we were presented to Ernesto Despain, the person we were looking for some time now (due to his relations with Ceferino Alvarez (G-2) and Josefina Socarras (Ceferino's girl friend, of whom I have been writing about for some time now). We started to get places, with all full cooperation, the first time there as we spoke only to Dr. F'dez. On second time, with Despain present, we felt that we should not go into many details. Dr. F'dez. told us that Despain was planning on sending him with a delegation to Puerto Rico. I feel, as well as Frank, that this Dr. F'dez. (around 60 yrs. old) is a person that could very well organize his office to be of very valuable service against Castro and his Communists here in the States, as well as in Latin America where they already have their own agents operating. It is felt that Despain is trying to get Dr. F'dez. out of the way because he recognizes the importance of the planned Intelligence Service the Frente, through F'dez., ~~xxx~~ which could produce a very strong arm against Castro. Dr. F'dez. says that they are now working on the ABC form as used against a former president of Cuba known as Machado. Enclosed is an idea of how this group functions and are placed into many walks of life of importance to this cause. Their work is mainly of Intelligence Service and in a form of cooperating with the U.S. Gov't. in all ways possible without trying to get monies, if possible, to function. He is presently trying to get donations to \$300.00 to keep his office going for a month. Upstairs in the same building, they have radio operators (very well experienced) continuously monitoring all phases of importance in Cuba (sugar mills, etc.). Frank asked Despain if the file he had in his hands was for us. Despain was caught a little off balance as he became somewhat unnerved, but soon rallied and opened the file showing data on boats, but taking great pains to keep us from seeing the contents. I didn't want to press the point arousing any suspicion. Dr. F'dez. introduced me as a Joe Anderson, FBI man. I had formerly cautioned him against referring to me as anything special, which he

Cont'd. 8-----did anyway. I let it go at that to see the developments as it was no use to refute him again. However, when we parted, I did mention him again that he should not do so at random as I did not think it necessary nor what we had agreed upon. Dr. Fdez. did say so as introduced us to Despaigne as his Jefe (chief) and wanted to show his loyalty at the same time explaining to him that he was cooperating with us in all ways possible against Castro and Communism, which was plainly seen that Despaigne didn't like at all. Despaigne sat silent with no questions asked, hard, eyeing us as if waiting to see how far the FBI had gotten into matters of the Frente. I did not ask the Dr. any questions I wanted to and only said that I would like to be in touch with him at all times. Enclosed you will find photostatic copies of letters sent by Cubans here to Prague and the answers of same. He told me to ask him how he got this information. I did not feel that I should have done so at the moment. However, I will be in touch with Dr. Fdez. again soon as I said I would. I will not go to the office of this Intell. again as I was almost seen by a Frank Paez, Pepe Aguerro's friend. Pepe Aguerro is Paula Grau's husband, now here. I turned my head away, I think, in time. Dr. Fdez. says that he has a lot of more information to give me and that loads of stuff reaches him daily, all of which he can turn over to me for study. He said that he will get for me CIA files that the Frente has hidden and want to work with him. I feel, if Despaigne is out of the way, I could do much in getting what is needed of them. I do not feel safe with him around. I may be wrong, but that is the way I feel about security with him. I promised to return the enclosed photostatic copies but feel that the use of the files can be taken over for copy for the asking, as Dr. Fdez. said he would cooperate to the fullest.

Frank Arias has given me the following information (about Despain).

① Captain (Lieutenant, known formerly as) Ernesto Despain, head of the Frente Intelligence Service at <sup>124</sup>~~150~~ 14th Lane, Miami, with entrance in back of building at <sup>197</sup>15th Street, off Brickell Ave., worked for with Ceferino Alvarez (G-2, known as) in Government Insurance (Seguro Gobierno) and formerly in the now non-existent BANSECO (branch of National Bank of Cuba). Josefina Socarras worked with them also in Seguro del Gobierno. I have written of Josefina before through findings of Frank, who knew them all in Cuba (not Despain directly, only his family). This Captain Despain is an intimate friend of Ceferino and Josefina (planning to go to New York soon). She has been trying to get something started here, as reported before. It is strongly urged that this Josefina be surveilled constantly as I, as well as Frank, think that she is affiliated with Castro's clandestine activities here in the States. She received monthly checks from the Centro Refugiado. Captain Despain is planning on going to join the U. S. Army. He is definitely strongly suspected of giving everything of Intelligence to Castro and is tied in with the Communist and Castro groups here. He may even soon plan to disappear from the scene and should not be allowed to get off easily. He has been keeping Dr. Jose Julio Fernandez from organizing his anti-Castro and Anti-Communist files due to lack of funds (says Despain). It seems that this was just an excuse before and was done to keep the ball functioning as should be. I think that this Dr. Jose Julio Fernandez is very sincere and is innocently giving everything into the hands of Despain without knowing. How Despain got into this position is not known by us yet. As far as we are concerned he is a Castro penetration into the Frente and U. S. activities.

The above is the result of being sent to see Dr. Jose Julio Fernandez, head of Intelligence Service of the Frente (as told us by former Cuban Gr. Socallanes, friend of Frank). I went with Frank to try to find out about a woman whose son (one of two of them) had taken data and pictures for Castro of all <sup>(most)</sup> military and naval installations in the State of Florida.

cautioned him against referring to me as anything special, which he

Cont'd. 8--- Enclosed find the groups belonging to the Frente that was written for me by this Dr. F'dez.

Enclosed find (#8 marked) "Reporte and Informe" (2 sheets) given me Dr. F'dez. to show what they are doing now.

Dr. D'dez. informed me of the following:

- (a). A Communist militant; Alberto Iglesias, 425 Cedar Lane, E Meadow, New York (Phones: IV-1-4368 and IV-6-4547). He is a Resident of the U. S. for more than 20 years. He has his business, "American Welding and Boiler Works Co.". This is a man to be watched as he even uses his business as a front.
- (b). Mario Garcia, Miami Ventilated Awning Co., Inc. (works at): presently asking Immigration permission to go to Cuba and is considered as one of Fidel Castro's heads here with a great many ties.

Enclosed find a break down of expenses of the Frente Intell. Office given me by Dr. F'dez., my asking him for same. Frank Arias is helping the Dr. get funds for the maintenance of this office for at least another month. I think that this set up should be taken in study. -----

Enclosed find marked #9, 2 documents, given me by Emanuel Carvajal last night which are self-explanatory in Spanish. One is a list of exiles in their Costa Rican Embassy in Havana, and the other is a document (copy) signed and given today to the Minister of Foreign Relations of Cuba in Havana. It seems that there was very much discussion concerning same amongst the foreign diplomats in Cuba. The Egyptian Ambassador (RAU: Syria, etc.) went to the first meeting the diplomats had in Habana concerning the new monetary exchanges. He first agreed strongly with the rest and promised to sign the enclosed type document concerning the new \$ exchange in Cuba. The first meeting was held last Monday, Aug. 13th, and they met again

a second time on Thursday in order to sign. He (name not known by Carvajal) then refused to sign and did not even show up which indicated to the remainder of the diplomats that his money must have been exchanged in the full amount to keep him off the list of signatures. The Swiss Charge D'Affairs informed at the same meeting, to the Diplomats, that he received information from his Government that the Swiss Gov't. was checking all present Cuban bank accountants existing in Switzerland and were readying themselves to act accordingly in case the Cuban Gov't. should not reach any agreement in regards to the exchange with the Diplomats.

Cont'd. 9---

The Japanese Ambassador said he informed his Gov't. about these difficulties as a protest against the behavior of the Cuban Gov't. This he told at the Diplomatic meeting.

- About a week ago, there was a hunger strike at the Brazilian Emb by the exiles there. However, they gave up as a gesture to only obedience to the Ambassador. They protested against not receiving salvo conductos and other things.

- This coming week, Monday or Tuesday, the Diplomats again are getting together at a meeting to protest before the Cuban Gov't. about the lax and ~~unresponsibility~~ designing ways of handling this affair, and remind the Gov't. of their obligations in extending the courtesy according to International agreements.

- Carvajal asked me not to mention this, but later said that he informed us about Ambassador Quiros leaving Havana this Thursday as he was being recalled by the Costa Rican Gov't. for consultation. Carvajal will be in charge of the Embassy for the time, but said he didn't expect the Ambassador to return as he is taking his family and household items.

He also told me again that Eduardo Odio, Costa Rican Consul in Havana, was a person not to be trusted by many experiences they had already had with him.

- DO NOT MENTION CROWN NOW!

(ARMANDO MORALES) WIFE CALLED LAST NIGHT SAYING HE ENTERED CUBA THROUGH AIRPORT WITHOUT ANY VISA! HE AND SHE WERE TOLD TO RETURN HE OF SAME!

I have money for him? if you want to give it to him
